# MAN VS. MACHINE

## "HANDS-ON TRAINING"

***PRESENTED BY:***

# P.L. VULCAN

## FIRE TRAINING CONCEPTS

**Students are instructed on methods they can use to disentangle victims from a variety of unique situations. Rotating through intensive hands-on skills stations, evolutions will progress in complexity from basic techniques (ring removal) to those including auger/press entrapments, impalements (fencing), persons trapped under vehicles, hands stuck in machinery as well as other "tips & tricks" learned from real-world experiences.**

## $75 Per Person (Vouchers Accepted)

**Pre-Registration required by Friday, April 17**

**Limit 5 Members Per Department**

**(Additional Members May Be Added Based On Seat Availability)**

**Due to insurance regulations, you MUST be registered through your department**

**Mark Gregory has over 30 years of firefighting experience currently serving as the Captain of FDNY Ladder 176 in Brooklyn. Mark instructs for both the FDNY and Suffolk County Fire Academies, has been published several times and is the Lead Instructor for FDIC's HOT Program "Man vs. Machinery" which is taught by P.L. Vulcan Fire Training Concepts LLC.**
