Training is geared towards Pet Parents, Pet Care Professionals (Groomer, Sitter/Walker, Kennel Staff, Vet Tech) and Animal Rescue Volunteers (NO prior training/experience required). Taught with the same highly interactive approach as our basic class featuring an emphasis on hands-on skills practice to ensure proficiency in the life saving skills taught.

Hands-on skills training

- Review of key basic skills (muzzling, CPR, tourniquets)
- Hemorrhage Control (impalements)
- Fracture Management (splinting)
- Safe Packaging/Transport of an Injured Pet

*A unique aspect of our Advanced Pet First Aid Class is scenario based hands-on skills challenges in a variety of "real world" emergencies including Bleeding Control, Fracture Management, CPR and other Emergencies.
